

Ask what you have given to your country

“Ask what you have given to your country rather than asking what the country has given to you”, referred Prof. V.B. Hiremath, Principal, Grade –I of P.C. Jabin Science College, to the patriotic words of John F Kennedy, on the occasion of the celebration of 62nd Republic Day at the college which was celebrated with national fervor and pride. In his presidential remarks, he said that the meaning of Republic should not be just in words but it should be practised like Sudha Murthy, Salu Marada Thimmakka and many other great personalities who have dedicated their lives to the development of the country by adhering to the words of Kennedy. “Our constitution has enabled the country to witness a huge development in the fields of science and technology since it came into existence on 26th January 1950”, he opined.

The celebration began with the hoisting of our National Flag. It was followed by the patriotic songs, speeches and reading of self composed poems. Smt A. M. Jalavadi, Professor of Kannada also sung a song “Ye Mere Vatan Ke Logon....”

On the same occasion Blood Donation Camp was also held. College staff and students donated Blood.

All College staff and students were present at the celebration. Miss Geeta compered the programme.
