

KLE Society's
P. C. Jabin Science College, Hubballi
Autonomous College
CPE - Phase-III
Re-accredited by NAAC at 'A' level with CGPA 3.43

INSTITUTIONAL DISTINCTIVENESS

2019-2020

The institute has been imparting quality education to the students since 1957 to face global challenges. KLE's P. C. Jabin Science College aims to provide science education and research by various practices. Ethics is one of the practices that apply to every employee and part of institute regardless of their position and responsibility for overall efficient management which leads to various recognitions and rewards.

The ethics and values reflected in various functions of the institute are:

- Introduction of certificate courses
- Organizing workshops, conferences, Seminars on ethics and values.
- Mentor-Mentee system
- Enhancement of Employable skills
- Guest lectures on various issues such as, Environment and its Conservation, Health Issues, Advances in Technology
- Celebrations of Swamy Vivekananda Jayanthi, Mahatma Gandhiji and Lal Bahadur Shastri Jayanthi, Environment day, Founder's day, Teachers' day, Yoga Day, Ozone day, Sadbhavana day, Constitution day, Swachh Bharath Programmes etc.
- The institute has adopted villages for their all-round development by organizing various awareness programmes.

It is observed that the students spend a great part of their life with teachers and in turn teachers also contribute a lot in moulding the overall quality of students' lives. Hence, they can analyse their life style and behavioural attitude by understanding what is right, and deciding what they can do for themselves and others, to create the kind of society they want to live in.

In the light of the findings of the research, it is concluded that our faculty is aware of their responsibilities in shaping the moral and ethical values of students. This has been fulfilled by organizing the following programmes.

- Women's Equity and Rights for s 21st Century
- Gandhian Ideologies for the 21st Century
- Heritage Fest
